

PRODUCT DATA

RESTROOM CLEANER

DESCRIPTION

Residues of urine and other bodily fluids are a major cause of severe odours and stains in restrooms and lavatory environments. AllChem Restroom Cleaner has been specifically formulated to eliminate organic waste and deposits from lavatory and restroom areas. It works quickly to clean up urine, faecal and vomit residues from toilets, basins, urinals and porous tiles when used on a regular basis. It also contains complex surfactants to superiorly clean all bathroom surfaces including porcelain and enamel. When used in mopping applications, any remaining solution can be poured into drainpipes to help prevent build-up and keep plumbing running freely.

INSTRUCTIONS

Apply several ounces on AllChem Restroom Cleaner to the bowl depending on soil. Swab bowl or urinal and allow to remain in bowl as long as possible. Apply product by using a trigger sprayer directly to hard surfaces and wipe clean. When mopping, dilute product 1-1 with warm water and apply liberally to tiles and grout. For heavily stained and foul smelling area, product concentration should be increased and allow to remain on surface as long as possible.

FEATURES

- Neutralizes malodours
- 100% biodegradable
- Flexible applications
- Great fresh scent
- Keeps tiles shining
- Keeps pipes running free

SPECIFICATIONS

Appearance:	Clear Blue Liquid	pH:	6.5-7.5
Odour:	Pleasant	Biodegradable:	Yes
